Thomson Reuters

Senior Interface Designer - Thomson Reuters Labs
March 2013 – Present

Senior User Interface Designer working on new technologies for a range of platforms for Thomson Reuters Labs and Engineering. I design innovative products and create digital solutions for not only mobile, tablet and web, but for pioneering platforms such as Apple Watch, Amazon Alexa and Virtual / Augmented Reality such as the Microsoft Hololens.

WPP – Possible

Digital Designer
March 2012 – March 2013

Digital Designer for major clients such as Freesat and Vodafone. Predominantly working in parallel with GREY on SEAT’s global digital presence by redesigning their responsive website. Viral campaign pitches and designing high concept promotional websites for new car launches.

Grapple Mobile / Monitise Create

User Interface Designer & UX Architect
March 2011 – March 2012

User Interface Design and User Experience (Wireframes & Userflows) for cross platform mobile apps for iPhone, Android, Windows Phone, Blackberry & Nokia. Working in a fast-paced agile environment of ideation and design for an eclectic set of clients, ranging from Lloyds Bank to Vodka Revolutions.
